

BNAPR 3D-Navigation-Control Professional

Anwendungsvideo
Application Video

3D-Navigation-Control Professional este un sistem de ghidaj potrivit pentru toate sistemele de implant utilizate în mod obișnuit și permite utilizarea șabloanelor de chirurgie chiar și în situațiile unor molari. 3D-Navigation-Control Professional este un upgrade al 3D-Navigation-Control și include un Kit additional de fixare 3D pentru fixarea optimă a șabloanelor de ghidare chirurgicale.

3D-Navigation-Control Professional is a guide sleeve system that is suitable for all commonly used implant systems and permits the use of surgical guide templates even in tight molar situations. 3D-Navigation-Control Professional is an upgrade of 3D-Navigation-Control and includes an additional 3D-Fixation Kit for optional fixation of the surgical guide template.
